Some say computers will one day prove to be the ultimate thinkers. But as of yet the only system that can tackle an almost infinite range of problems is the amazing human brain. Here's a chance to put yours to the test. These mazes, crosswords, visual challenges, word puzzles, and brain-twisting teasers provide a feast of fun and a great way to keep your thinker in tiptop form.

Try the easier puzzles (one star) first, and then progress to the harder games (two and three stars). You'll find the answers starting on page 48. But resist the temptation to peek in advance. Instead, look for the solutions in the back of your brain—with a bit of patience, you'll find them there!

Now put on your thinking cap and get ready to tickle that gray matter.

You can find hundreds more puzzles in The Reader's Digest Book of Puzzles & Brain Teasers.

1

Which of the four figures on the right completes the set?

A

B

C

D

Can you spot which two frogs are identical?

3

What shape should be in the top brick?

4

Which are the only two pieces that will fit together perfectly to form a green flower identical to this orange flower? Pieces may be rotated, but not flipped over.

5

Which is the only shape to appear twice in the box below? Circle the pair.

6

Follow the unbroken path from one tower to another.

7

What word might appear in the missing space?

8

In this sequence, which of the lettered alternatives should replace the question mark?

The shape below can be folded to form a cube. When it is, just one of the following can be produced. But which one?

A

B

C

D

E

10

Don't get lost in this maze as you try to make your way from top to bottom.

This birthday cake has been divided into exactly three portions. Which three of those below were taken from the cake?

A

B

C

D

E

F

G

H

I

One bunch of flowers isn't exactly the same as all the others. Which is different?

A

B

C

D

E

F

is to

**A****B****C****D****E**

14

Which two
teapots are
identical?

15

Without lifting
pencil from paper,
draw straight lines
to divide this heart
into five parts,
each containing
the letters
H, E, A, R and T.

16

Can you solve this honeycomb maze and help the bees to meet? Try not to get stuck!

The dice blocks each have a six-letter word written on them, but unfortunately you can see only three sides. When you have solved the clues, the first column will reveal a ten-letter word.

Can you arrange these groups of tiles on the grid to create eight different four-letter words running vertically and horizontally? One letter has been left out. Can you identify it?

22

Can you crack the code to find the hidden phrase?

HUGH CANDY SIGH FIRTH HISS

CODY FUSE PEAKY TOUT LOUD

23

Only one of the sets of five letters to the right is an anagram of a five-letter word in the English language. Find the word.

**LOCAN
KRTAC
PUGBI
FRACL**

24

It is possible to change Keep to Hold in four steps, each time creating a new four-letter word. Can you do it?

K E E P

H O L D

25

Can you change Worm to Cast in four steps, each time forming a new four-letter word?

W O R M

C A S T

Can you work your way to the head of the snake? Words overlap, with the last one or two letters of each answer starting the next. A few letters have been placed on the snake to help you along.

CLUES

- 1 Damp (5)
- 2 Male horse (8)
- 3 Bare (5)
- 4 Water down (6)
- 5 Awful (8)
- 6 Depart (5)
- 7 Everlasting (7)
- 8 Marzipan nut (6)
- 9 Peril (6)
- 10 Rub out (5)
- 11 Story in parts (6)
- 12 Small (6)
- 13 Citrus fruit (5)
- 14 Required (6)

The answers to the clues below are all five-letter words. When placed correctly into the grid, they will form a magic word square in which the same five words can be read both horizontally and vertically.

CLUES

Entire amount

Last letter of the Greek alphabet

Moderately warm

Able to move quickly and easily

Loaded

28

Solve the clues and place your answers into the pyramid. When complete, the 14 letters can be rearranged to find a classic work of literature. (2 words)

CLUES

- We, America (2)
- Major division of geological time (3)
- Communists (4)
- A dead language ("as dead as it can be...") (5)

29

This riddle has TWO possible answers, either of which is correct. Can you find them both?

- My first is in split but is not in tear,*
- My second's in apple and also in pear.*
- My third is in bitter but is not in sour,*
- My fourth is in minute but never in hour.*
- My fifth is in quadrant as well as in square,*
- My sixth is in circus but is not in fair.*
- My seventh's in shine and also in sheen,*
- My whole, you will see, has leaves that are green.*

What am I?

The dice blocks each have a six-letter word written on them, but unfortunately you can see only three sides. When you have solved the clues, the first column will reveal a 10-letter phrase.

CLUES

- 1 Wood
- 2 On fire
- 3 Water heater
- 4 Overjoyed
- 5 Obstruct

- 12 Colonize (6)
- 13 Surplus (5)
- 14 Scallywag (6)
- 15 Every time (6)

43

Place the jigsaw pieces into the square grid so that each row, column and diagonal adds up to the same number. Plus, if you add the four corners, the middle four numbers or each quadrant, each one totals that same number too!

44

Can you place the 2, 3, 4 and 5 of each card suit so that every row and column (but not necessarily the diagonals) contains exactly one card of each denomination and suit?

45

This riddle is sent
to try you.

*My first is in torment but never in pain.
My second's in scornful but not in disdain.
My third is in meadow but not in a farm.
My fourth is in injure but never in harm.
My fifth is in loathe but not in despise.
My whole is ideal but may not be full-size.*

What am I?

46

Decode this puzzle to discover a picture that can be found
running down the central column.

= Observe

= Buy

= Fire

= Cog

= Owl's cry

Find each country's capital city in the wordsearch. It helps if you know it to begin with.

| | 10 In front (5) | |

The answers to the clues are all five-letter words which, when placed correctly into the grid will form a magic word square in which the same five words can be read both horizontally and vertically. The clues below are in no particular order.

Awaken

Molars

Got up

Measure of weight of precious stones

Anything valuable or useful

ANSWERS

Answer page 3:

1

D. Each line contains two red dice and one blue die. Each line contains a two, a three and a five. The missing image is of a red die, number three.

Answer page 4:

2

B and E.

Answers page 5:

3

An octagon. Each shape has the same number of sides as the sum of the sides of the two shapes below it. If the number is over 10, then the last digit is used instead. For example, $9 + 8 = 17$ so the brick above is 7-sided. The top shape is an 8-sided octagon because there are two 4-sided shapes below it.

4

A and E.

Answer page 6:

5

Answer page 7:

6

Answers page 8:

7

RED or TAN. The number of letters in each tile is one less than those in the following row. Hence, there must be only three letters in the empty tile.

8

C. Think of this shape as a clock where the circle represents an hour number on the face—the “hour” moves back two places every time.

Answer page 9:

9

E.

Answer page 10:

10

Answer page 11:

11

B, D and I.

Answer page 12:

12

B.

Answer page 13:

13

C. Circles move as follows: top left to bottom right, top right to bottom left, bottom left to middle right, bottom middle to top, bottom right to middle left.
